TR.PRO: BENEFITS

TR.Pro provides a dispatching solution including all main PMR system features. The TR.Pro application is based on T.Bridge middleware technology plus T.Rodon. Easy-to-use and easy-to-scale. TR.Pro is designed for PMR radio networks for voice (group and individual calls), messaging (including status messaging), GPS Localization and Emergency.

FLEXIBILITY
TR.Pro will extend the flexibility of your network. You can use it as a dispatching central software for the following PMR systems: SEPURA Radios (TETRA), HYTERA (DMR II, DMR III), KENWOOD (ANALOG, NXDN CONVENTIONAL, NXDN TRUNKING, P25, DMR), MOTOROLA (ANALOG, MOTOTRBO DMR), DAMM (TETRA). It runs on Windows 7 and above + Android/IOS devices (on request).

COMPATIBILITY
TR.Pro is using T.Bridge, which is a universal solution connecting to different PMR networks over an API interface and expand the PMR network with TASSTA software possibilities. The TR.Pro concept keeps the idea to provide users with vendor independence.

SCALABILITY
TR.Pro enables you to connect to PMR networks. You can expand your system as desired – anytime and everywhere.

PROFITABILITY
TR.Pro is a perfect extension and dispatching solution to any PMR system. It gives cost-efficient advantages and is the best compact solution for your daily needs.

INTERFACE TO PMR
TR.Pro is connected to the PMR radio infrastructure via defined interfaces (e.g. API, PEI, XCMP or any other). The features and functions are defined in the scope according to PMR interface and its possible functionality.
**GROUP CALL**
The core function of any 2-way Radio system. PTT allows a single person to reach hundreds of users in groups with a single button press.

**INDIVIDUAL CALL**
Allows users to communicate privately outside of a group. A one-to-one simplex call is easy and fast to setup.

**MESSAGING**
Allows to send/receive text messages including status messages. Handles text messages in your PMR network.

**STATUS MESSAGES**
Add your predefined status messages from your radio system into TR.Pro configuration and be prepared to use them as you do during your daily operation.

**EMERGENCY CALL**
The activation of Emergency will immediately send an acoustic and visual alarm to the dispatcher, alerting him of an emergency situation.

**GROUP CHANGING**
TR.Pro offers the list of existing groups which are programmed into the radio. Simply change the group of the radio by choosing any group on the screen.

**GPS LOCALIZATION**
Provides an opportunity to obtain GPS coordinates from PMR terminals and TASSTA clients. The GPS data can be displayed on the TR.Pro desktop client map or routed to specified interfaces.

**RECORDING**
All voice communication can be recorded on your hardware. Without adding any other additional tool. Simply switch on your recording without any additional costs. GPS recording is also coming soon.

**MULTI-GROUPS & MULTI-LISTENING**
Use the Multi-Groups support to communicate with different groups in your network and Multi-Listening to listen to several groups at once!

**ALL CALL / BROADCAST CALL**
With one PTT click you can communicate through all groups and reach radio users in your own group plus all other radio users in other groups and the whole organization.
