

PTT SOLUTION FOR SPECIAL APPLICATIONS

TASSTA offers a professional Push-To-Talk solution with uses all technical capacities of the Crosscall Smartphones. T.Flex application and special hardware operational buttons on the Crosscall devices are able to provide the best possible safety for an everyday operation.

TASSTA T.Flex which is installed on the Crosscall devices makes it possible to organize a professional PTT communication platform in hazardous environments (e.g. oil and gas plants, chemical plants, mining, etc.).

TASSTA extends capabilities and allows users to operate on cellular networks around the world. It works over LAN, WiFi or/and any mobile network (e.g. 3G, LTE) while allowing users a maximum connectivity.
